

**Diamonds
are a floor's
best friend.**

best friend
of a floor

If your floors could talk...

...what would you want them to say?

With the Crystal Shield™ solution from TASKI® by Diversey™, they'll thank you for making them look great for less. Crystal Shield is the new, alternative floor care program for concrete, terrazzo, marble and other stone substrates. With Crystal Shield, you can create and maintain a beautiful floor with less maintenance than other, more costly stone care options. Now that's something to talk about!

Save up to 30% on floor maintenance

Get beautiful floors and improve your operational efficiency at the same time. Crystal Shield costs up to 30% less to use than traditional finishes or mechanical floor care programs like orbital grinding and crystallization.

Eliminate chemical stripping and crystallization chemicals

The Crystal Shield solution eliminates harsh chemical strippers and crystallization chemicals. This improves worker safety and sustainability while reducing labor costs.

Use less chemicals

Crystal Shield combines mechanical and chemical methods to create and maintain glossy floors and improve sustainability, requiring 20% less chemical spend than traditional floor maintenance methods.

My outward shine brings out my inner beauty.

Crystal Shield

Nothing sparkles like crystal!

Use less chemicals

Crystal Shield combines mechanical and chemical methods to create and maintain glossy floors and improve sustainability, requiring 20% less chemical spend than traditional floor maintenance methods.

Shine and durability made simpler.

Crystal Shield is the complete, integrated solution for a durable, long-lasting gloss appearance on your stone floors. It brings together the products, tools and equipment you need for great looking floors, with the expertise and partnership from Diversey, the industry's global leader in floor care.

Synergistic integrated solutions

Crystal Shield brings together innovative diamond technology, protectants, cleaners and machines to deliver an outstanding, productive and sustainable stone floor care solution.

Hone and polish easily and economically

- ▶ The Crystal Shield solution uses the power of diamond-impregnated discs and pads and efficient, labor-saving TASKI machines to hone, polish and burnish floors to reveal the beauty of the stone floor.
- ▶ Eliminate costly and disruptive stone floor restoration to extend the life of your floors.

Protect and enhance with less time and less waste

- ▶ Crystal Shield Protector™ protects your floors against scuffs, scratches, stains and dirt while providing slip resistance and enhancing the gloss.

- ▶ Use the ProSpeed™ Floor Finish Applicator System with an innovative design that delivers a consistent application of protectant to improve worker productivity and eliminate waste.
- ▶ Apply just two coats of protectant—unlike the multiple coats traditional finish systems require.

Maintain the look without the mess of chemical stripping

- ▶ TASKI Crystal Shield diamond pads and Crystal Clean and Shine™ are all you need to maintain the beauty of your floors.
- ▶ The unique Clean and Shine formulation with polymers extends the look of your floors.

- ▶ Eliminate chemical strippers with their smells, mess and risks. Restore floors as little as once a year by simply reapplying Crystal Shield Protector after you clean and burnish.

Get the Crystal Shield solution for a great looking stone floor that improves your operational efficiency, reduces risk and strengthens your sustainability.
